Subject: Worship and Press Conference  
November 29, 2007

Dear Baltimore-Washington Conference Disciples,

Last week I wrote to you about an important worship service and press conference at John Wesley Church in Baltimore on Friday, December 7, 11:00 AM. This is in response to the increase of violence in the city which now has the second highest murder rate per capita in the Nation. We will commit to the people of Baltimore that we will work with them to restore hope and healing, present salvation and to develop the city one community at a time. It is important for you to come to the worship and to bring individuals with you. Please announce this in your congregation this Sunday.

Shalom!

John R. Schol, Bishop

The Washington Area of  
The United Methodist Church  
Baltimore-Washington Conference

We seek to be like Christ  
as we call, equip, send and support  
spiritual leaders to make disciples and grow  
at least 600 Acts 2 congregations by 2012

You know you want to look your best for your wedding day. What you might not know? What to do to get there. We went to the pros for insider beauty tips for brides, whether you're going pro or doing it yourselves.

wedding dresses

"If you're doing your own makeup, it is a good idea to schedule a makeup lesson with a licensed professional to teach you everything you need to know about bridal makeup and makeup in general. This will give you confidence and knowledge that will last way past your wedding day."

wedding gowns

More hair spray is not necessarily better. Too much of it can weigh down the hair and give it a dull finish. Sometimes, if hair is too oily, the hair spray can make it look whitish or cloudy."

prom dresses

"If you're concealing a tattoo, learn to do it the right way with the right products. Go to a professional makeup artist first and have her teach you the right steps to conceal a tattoo and the correct products to buy for your skin tone."

"Don't neglect your eyebrows, but don't do them yourself."

wedding dresses

Your brows frame your face, so let a professional take care of your brows. It's also a good idea to get them done days before so there's no redness."

Wow power leveling

The official World of Warcraft site has been updated with a look at Archaeology, a new profession coming when Cataclysm launches. Other new professions include Cooking, First Aid and Fishing. Archaeology, as its name implies, involves seeking out that which was lost and trying to complete artifacts for unique item rewards Wow power leveling.

wow power leveling

Completing the rarer artifacts can reward the Archaeologist with unique items, including epic-quality weapons, mounts, and non-combat pets. In addition to the normal artifact fragments used to finish all research projects, special fragments

---

called keystones can also be found by higher-level players wow power leveling.

world of warcraft power leveling

These fragments are valuable to all Archaeologists because they count as five normal fragments for most research projects, and they can be freely sold and traded. Archaeologists of exceptional skill can also use keystones to grant benefits to their friends in high-end raid instances world of warcraft power leveling.

world of warcraft power leveling

Blizzard Entertainment has released the minimum and recommended system specifications for the World of Warcraft expansion, Cataclysm. The specs ramp up the minimum computer needs a bit from where they stand now. Cataclysm is set to launch on December 7th so be sure your computer hits the mark world of warcraft power leveling.

buy wow power leveling, I played through buy wow power leveling the various quests in the areas I chose to level in, maple story power leveling, I often smiled maple story power leveling at the gimmicky - yet very effective - ways that the developers had hidden the grinding and collecting. cheap wow gold, Instead of cheap wow gold sending you off on these quests one after the other, buy wow gold, many introduced buy wow gold something new and interesting for you to goggle over for a shot while. Be it riding around on a boat, rift power leveling, putting out fires to save a quest hub, rift power leveling to jumping aboard an Alliance tank and gleefully smashing through hordes of Orcs (no pun intended), these gimmicks had manage to solve the problem that grinding and collecting have always suffered from - a distinct lack of fun. And all of these things amount to an experience that, for the most part, is fun, and enough of a distraction to keep the idea that it is still - at its very core - the same grind that you have always undertaken when leveling.
